JMC Counselling & Training are the only counselling training provider in Northern Ireland, and indeed, one of the few in the whole of the UK and Ireland, that can provide their counselling students with EVERYTHING they need to become a fully qualified professional therapist.

In year two of any professional counselling qualification, it is the student's responsibility to gain a counselling placement with reputable counselling organisations. This can be extremely difficult as there are approximately only two places available per five applicants. However, the Mid-Ulster Association for Counselling & Psychotherapy (MACP), are a charity and a subsidiary of JMC Counselling & Training based in Coalisland Co Tyrone, providing student counsellors with all the additional and mandatory

requirements needed to achieve professional recognition as a Counsellor or Psychotherapist. Please note MACP are a separate organisation to JMC Counselling & Training therefore some additional terms and conditions will apply. Unfortunately, MACP do not offer placements anywhere else in the North other than Coalisland. Students can of course access placements closer to home, with alternative placement providers.

All students in year one is thoroughly prepared to begin providing one-to-one counselling to those presenting with mental health-related issues; placement will begin in year two, or when 50% of the course has been completed (whichever comes first). You will also gain confidence and skill as you provide one-to-one therapy to others and gain an overwhelming sense of satisfaction being in the position to help clients to help themselves! JMC offer a wide range of services applicable to counselling which other training providers simply cannot.
